

## Cable Connection details the Single Socket version P2W

### Pulse Inputs

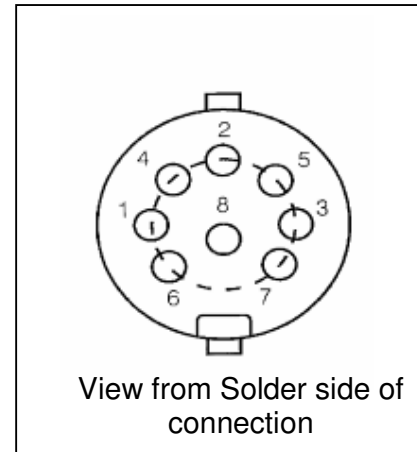

- The P2W allows connection for two water meters.
- The meter must provide either a volt-free contact or solid-state output.
- Pulse can be counted on both inputs at a maximum frequency of 10 Hz.

### Technical Data

No. of pulse inputs	2 max.
Min. sensor resistance (ON)	200 $\Omega$
Max. sensor resistance (OFF)	400 k $\Omega$
Output pulse width	5 ms
Switch-on resistance	< 10 ohm

### Connection Details

Wire Colour	Pin Number	Meter
White	1	Meter 1
Brown	4	
Green	5	Meter 2
Yellow	3	

### Assembly Details
